Electronics club spsu

2012-13

# Introduction: Electronics club SPSU is happy to announce EPC SPSU (Electronics Project center) for all the students who are passionate about Electronics project.

# Duration : 16th Aug 2012 to 04th Oct 2012   (Projects may be finished before the scheduled time)

# General Rules :

1. Teams can be of maximum 3 student and 1 can do individual project too,We recommend that they should be of same class and same hostel, so that they can work wherever they want.

2. Choose a big project that will take some effort and time from you , It will help in your skill development.

3. Talk to Organizers about your project, and then to concern it with your faculty member for improvement.

4. Electronics club have already so many components, you can issue it and when you have done , revert it back !

5. You can go for a faculty member at office hours and can approach organizer to anytime.

# Benefits :

1. You can use it as Endeavour, Minor or Major Project.

2. Some Extra Ordinary projects will be published

3. Some projects will go in company contests.

4. You will feel like you are doing something in Electronics while Working with us.

For any query , feel free to ask organizers :
